Sub: **Commercial Offer for**

Referring to your interest in **emdha TSP** Trust services, we are pleased to submit our proposal with a very special promotional pack tailored for
as an "initial adopter advantage" to embrace the new digital signature technology and be a part of the Kingdom's 2030 Vision.

We would like to emphasize that **emdha TSP** is fully compliant with the guidelines laid down by DGA and in line with the compliances stipulated by WebTrust for CA, Microsoft, and Adobe. Our solutions offer Digital Trust Services in KSA to enable a seamless integrated, paperless, and presence-less solution for
business needs. emdha allows the users to sign with different capacities based on their business requirements such as signing as an Individual or as an Organization Person.

emdha is a subsidiary of BTC, offering Digital Trust Services to various business segments in the kingdom. BTC is a 100% Saudi-owned company with more than 49 years of extensive experience in the ICT sector with established and strategically positioned branches kingdom-wide. The company runs its operations with more than 1200+ skilled, certified, and dedicated employees along with affiliations and vendor partners in the Middle East and around the globe.

We trust our offer meets your requirements and look forward to forging a landmark cooperation in embracing the 2030 Vision.

Baud Telecom Company

emdha – Trust Service Provider

ABOUT emdha TSP

emdha is a Trust Service Provider to offer Legal Digital Signature Services regulated by the Saudi Authorities and in compliance with Global, PKI Regulations to facilitate the "Vision 2030" in the Kingdom of Saudi Arabia. **emdha** is a subsidiary of **BTC Networks**, a 49-year-old renowned company that forefronts new technologies in the kingdom and continues to make people, businesses, and technology future-ready!

- BTC - emdha TSP is the **First Certification Authority** to receive a license from DGA to become a Certification Service Provider in the Kingdom of Saudi Arabia
- BTC - emdha TSP is the **First Certification Authority** in the Kingdom of Saudi Arabia to receive a WebTrust Seal of Assurance, making emdha compliant with the international best practices related to digital signatures.

emdha TSP offers Certification and Digital Trust Services to enable businesses to seamlessly integrate and avail remote signing service in real-time. It delivers a superior user experience by incorporating a secure and globally compliant digital signature practice. emdha TSP takes the responsibilities of User/Signer Authentication and KYC to expand our boundaries by reaching all types of digital signature use cases in KSA by including the needs of citizens/residents and organizations.

BTC operates a state-of-the-art and highly secure infrastructure for its BTC – emdha TSP Certificate Authority and Trust Services with the help of skilled subject matter experts.

G) Pricing Terms

- **Proposal Validity:**
- **Payment terms:**

H) Assumptions and Exclusions:

1. **The Customer** should have the necessary bandwidth to facilitate uninterrupted connectivity between **The Customer** environment and the emdha environment.
2. Any modifications/integrations in **The Customer's** existing source systems to communicate for the purpose of enabling Digital Signature functionality are outside BTC/emdha TSP scope and will be managed by **The Customer**.

I) Terms and Conditions:

1. The terms and conditions listed here are associated with the special pricing given above and shall supersede any conflicting terms and/or conditions in any other agreement.
2. POs are irrevocable and non-refundable unless BTC provides written approvals.
3. Upon the expiry of bundle validity, the unused number of bundled transactions shall expire. Carrying forward unused transactions in a bundle is not permitted.
4. The validity period starts from the date of activation of the emdha eSign service or after three months from the date of the P.O. whichever is earlier. In the case of ongoing services, the validity period starts from the date of renewal or upon 100% consumption of the existing bundle, whichever is earlier.
5. Refund Policy:
    a. A refund for unused transactions in the bundle is not permitted.
    b. In case of unexpected outage or loss of service due to unavoidable circumstances, A suitable extension of validity or an additional # of transactions may be added upon agreement by BTC.
6. Termination Policy: Advance payment is non-refundable upon termination by the Customer.
7. Service Subscription Agreement and On-boarding documentation will be provided separately after PO and to be signed mandatorily by the liable Authorized Signatory before service activation.
8. This special pricing is confidential and shall be protected from unauthorized disclosure.

J) Force Majeure and Exception

1. Baud Telecom Company (BTC) / emdha TSP should not be obliged to fulfill its contractual obligations as a result of Force Majeure like Hurricanes, Floods, Fire, Explosions, Riots, Strikes, War, Boycotting, Delay in Transportation, etc. that may result on the equipment quoted in this offer and which is considered to be out of BTC/emdha TSP's control.
2. BTC/emdha TSP has no direct or indirect liability towards the customer if he is partially or totally incapable of operating the system, or non-compliant with the correct operating procedures.
3. BTC/emdha TSP accepts no further liability for any materials or immaterial loss if the customer miss-handle the equipment including Billing System, Software, and/or unqualified operation, against the operation manuals, which causes a partial or total failure to the equipment.
